I felt the earth move, I saw the sun rise  
Knew who the stars shine for  
Understood Ouspenski  
Witnessed Velokowski's  
Sunset rising at my door

Tracing my footsteps  
Right down that slow train  
I felt so relaxed so cool  
What killed another fool  
Just kept me sustained

So I just watch the mountains grow  
Listen to the wind lie to me  
Diggin' those changes on the radio  
Cravin' some cool, cool water  
I'm dying of thirst like some fool salted my  
circumcision

And the yogi's so high  
But the difference is, little differences  
I've never been so high  
Only difference is, little differences

I'm stoned  
Stoned cold  
Stoned, I'm stoned  
I swear, I'm there, I'm stoned

First the silence, then the heat then fear sets in  
Afraid you're gonna get an answer, you don't want to  
hear  
The truth puts blisters on my skin  
Now, I got a problem with this whole concept, you see  
Ain't no beginning, no end

It seems like every time  
I think I've arrived  
A whole new trip begins  
And the difference is, should I say  
The problem is

I've never been so high  
Only difference is, little differences  
And the yogi's so high  
But the difference is, little differences

I'm stoned  
Stoned cold  
Stoned, I'm stoned  
Stone cold, I swear

I'm stoned, cold  
Stoned  
I'm there, I swear, I'm there, I'm stoned  
Cold, stoned
