I hear voices they tell me what to do  
Right now they're telling me to kill you  
Yesterday I loved you  
Today I want you dead  
Beat you, decapitate you  
Freeze your severed head

My family didn't understand me  
When I told them why I do the things  
I am told so I took their lives  
Limbs in the refrigerator  
Pieces in a sack  
Torso in the garbage  
With the spine ripped from it's back

I hear voices  
Now they tell me  
That I need some younger flesh  
To desecrate and use randomly

They didn't see it coming  
The little ones now dead  
Chopping hacking freezer bagging  
Morsels that I'll eat  
For sex I'll use the head

For sex I'll use the fucking head
