You oughta write a book called leavin'™ made easy*
Cause you do it so well
Step by step instructions On how to turn Heaven into
Hell
And it would be a million seller And this critic would
agree
That if you really wanna break a heart just read
leavin'™ made easy
You gave me all the standard reasons The required
tears
Grabbed your coat Picked up your suitcase And simply
disappeared
And just as easily as you made me fall
You took this lovin'™ heart and nailed it to the wall
You oughta write a book called leavin'™ made easy
Cause you do it so well
Step by step instructions On how to turn Heaven into
Hell
And it would be a million seller And this critic would
agree
That if you really wanna break a heart just read
leavin'™ made easy
I still hear those tires squealin'™ As you made your
run
You took the hardest part of leavin'™ and made it
look like fun
And like a harlequin romance I thought Hey we'™ d
love on and on
But you just wrote me off I guess I read you wrong
You oughta write a book called leavin'™ made easy
Cause you do it so well
Step by step instructions On how to turn Heaven into
Hell
And it would be a million seller And this critic would
agree
That if you really wanna break a heart just read
leavin'™ made easy
If you really wanna break a heart just read leavin'™
made easy
