Globalsoft

We sit alone and watch your light
Our only friend through teenage nights
And everything we want to get
We download from the internet

No need to think, no need to feel
When only cyberspace is real
It makes us laugh, it makes us cry
It makes us feel like we could fly
(We can fly)

A blueprint for our life online
Touch any key, the world is mine
We're lost in space, but we don't care
Without your light, our world's not there
Complete control, you are the power
Our lives are programmed by the hour
Globalshow
(Globalshow)

All we hear is radio ga ga
Video goo goo
Internet ka ka
All we hear is cyberspace ga ga
Marketing blah blah
Always something new
Globalsoft, all your world loves you

We watch our shows, we watch your stars
Across our screens for hours and hours
We hardly need our eyes or ears
We just log on and dreams appear
(Globalshow)

We're not alone, we have our friends
On cyber love, we can depend
So stick around 'cos we'd all miss you
We need our graphics, need our visual

Complete control, you are the power
You use our lives up by the hour
Globalshow
(Globalshow)

All we hear is radio ga ga
Video goo goo
Internet ka ka
All we hear is cyberspace ga ga
Marketing blah blah
Always something knew
Globalsoft
All your world loves you
Loves - you
