I don't mind if I'm getting nowhere  
circling the seed of light  
I've been greedy for some destination  
I can't get to where are you?  
Turning reverie to perfect solids, bone and shells to  
hide ourselves  
I tried, but can't find refuge in the angle, I walk the  
mystery of the curve

Five colors blind the eyes  
see the world inside  
amazed alone

I don't mind if I'm getting nowhere  
circling the seed of truth  
Telling everything but saying nothing  
I went further than I knew  
giving meaning a resuscitation  
the darkest soul illuminates  
the sky is changing I'm unknowing knowing  
as every sign of new life waits

Five colors blind the eyes  
see the world inside  
amazed alone

Opening my hands...closing wounds I made myself  
raise the dead and bury all my fears  
Listen to the rain  
and the bells that ring in my dreams  
turning time to break its line from here  
to the small forgotten road  
where we see the concrete world disintegrating

I don't mind if I'm getting nowhere  
circling the seed of light  
I've been greedy for some destination  
I can't get to where are you?  
Turning reverie to perfect solids, bone and shells to  
hide ourselves  
I tried, but can't find refuge in the angle, I walk the

mystery of the curve
