Love is not lost

Boy  
Boy meets girl  
And you know the rest  
Boy loses his girl  
In their love's first test

Is this supposed to be a happy ending now  
Is this the way it always goes

Girl  
Throws in her heart  
Like a losing hand  
She uses the boys  
'cause she thinks she'll never find her man

Is this supposed to be a happy ending now  
Is this the way it always goes  
Well I think I want my money back  
Because that's not all I know

Love is not lost  
It's not a lost cause

I meet you  
And you cut my heart  
You shake my ideals  
Until they fall apart

Have I lost it if I hope for something more  
Than feeling fatalistic pain  
And if true love never did exist  
How could we know it's name

Love is not lost  
It's not a lost cause  
Don't give up now  
Love is not lost
