It wasn't what I had to drink
That kept me up all night
Something you said made me think
I was up all night

I forgot my reservation
There's no room for doubt
I don't know how I got in
But you found me out

But now I can't find the door
Love is what I leave for
I can't find the door

Away from you, comrade
Away from you, baby
Away from you

Germany and Japan
Make me feel so poor
Like seeing some new movie star
In a dress I wore

You'll notice that I changed the subject
'Cause I'm afraid of you
There must be some back way or window
I can climb out through

But now I can't find the door
Love is what I leave for
I can't find the door

Away from you, comrade
Away from you, darlin'
Away from you

Unlock this dark room
Last time I knocked down the door
I've cornered fear with keys
From whispered core

But now I can't find the door

Love is what I leave for
I can't find the door

Away from you, comrade
Away from you, baby
Away from you

Away from you
Away from you
Away from you
Away from you, comrade
Away from you
Away from you
