"Signal"

The streets are so dark at night
But now they stay dark when it's light
You passed me the map
Under the table
I gave you who I am in secret

Looking for a signal
Underneath my feet
Up above my head
Too close to see

Waiting for a sign
Between heart and skin
Through the shoulders
Where the wings might have been

Finding your broken heart
And falling in
Cold blues where love has never been
At the mercy of your interest
Close your eyes I'll shake you slowly

Looking for signal
Underneath my feet
Up above my head
Too close to see

Waiting for a sign
Between heart and skin
Through the shoulders
Where the wings might have been
