

## Sam Phillips "Taking Pictures"

Visit "[Taking Pictures](#)" on [MotoLyrics.com](https://MotoLyrics.com)

When I take a picture of the city, it disappears  
It's only a photograph, the city is gone  
The places I go are never there  
The places I go are never there

Nostalgia isn't what it used to be  
I can only picture the disappearing world  
When you touch me

He brought me the air of Paris in a bottle  
The record caught the air of London, nineteen sixty-  
five  
The places I go are never there  
The places I go are never there

Nostalgia isn't what it used to be  
I can only picture the disappearing world  
When you touch me, when you touch me  
When you touch me
