

The Samples "Dinosaur Bones"

Visit "[Dinosaur Bones](#)" on MotoLyrics.com

From dinosaur bones to telephones
They call across the country to say they're home
It's something I read that they were dead
A thousand million years still stuck in my head

Like dinosaur bones

I saw my face in a fossilized rock
Did someone stop the sun
Did someone forget to set the clock

Like dinosaur bones

With a shovel in my hand
I'm gonna last long
I'm gonna find the secret
And then I'll find just what went wrong

From dinosaurs bones
