"Going Through Changes"

Visit "[Going Through Changes](#)" on MotoLyrics.com

Somewhere in the sky
There is a star named after you
Named after all the changes
That we've been going through

Somewhere in my heart
There's a scar that's left from you
It's healing there so slowly
It's the most that I can do

We're going through changes
We're going through changes

Tear yourself apart
Keep your chin up high
The only things that matter
Will always make you cry

Another simple change
To take my mind away
Take it to the river
And let it wash away

We're going through changes
We're going through changes

How funny this is to be alone, so long
Making steps to get me farther
The light ahead is just a cool, sweet song
It plays to me when things get harder

We're going through changes

A million miles out there
I think I see your face
Shining down from Heaven
In its state of grace

Rock me on the water
Kiss me in the sun
Every brand new morning
Changes what's been done

We're going through changes
We're going through changes

Somewhere in the sky
There is a star named after you
Named after all the changes
That we've been going through

Somewhere in my heart
There's a scar that's left from you
It's healing there so slowly
It's the most that I can do

We're going through changes
We're going through changes
