there's no time
there's no more places
for us to run away
and leave all these spaces

I know
you know
that we know
we're gonna have an overthrow

everyone
with a deep-seated need
to find their part
to make them see

and I know
if you know
we know
we're gonna have an overthrow
there's no book
'cause there's no directions
'cause no one overtook, no
chance at liberation

but I know
that you know
that we know
we're gonna have an overthrow
