"Shine On"

Visit "[Shine On](#)" on MotoLyrics.com

Mother earth
A big blue marble
The dancing moon
The falling sun
Shine on and on and on
Shine on and on and on
Shine on and on and on and on
Looking down
From tall tall buildings
As endless highways
Drive me to the oceans
Shine on and on and on
Shine on and on and on
Shine on and on and on and on
Shine on and on and on
Shine on and on and on
Shine on and on and on and on
Through my window
Or the shadows on the wall
Over the last known thoughts
The daylight will
Open our eyes
To see the truth
Years go by
But you and I will...
Shine on and on and on
Shine on and on and on ...
