

The Samples "Take My Heart"

Visit "[Take My Heart](#)" on MotoLyrics.com

Take my heart
And keep it in a box
Keep it only for
The days you need the most

Tell me something
That I've never heard before
Close your pretty eyes
And open up the door

Dance with me
Just for a while
Please kiss me
With that pretty little smile

She had feathers on her dress
And her mothers such a mess
She could mend a broken heart
We alond could never part

Hope to see you on another windy day
Running with the horses
Bailing all the hay

Tell me, tell me
That I'm the one for you
Hope to see you on another windy day.
