"Taxi"

We drink from the same glass
We share the same past
The time, long ago
You told me that I should know

It's hard
No matter what you do
My guard
Was always up for you

The job is never done
A kiss just for fun
Our flood waters are gone
Our blood brothers are strong

It's hard
No matter what you do
My guard
Was always up for you

I'll slip you underneath
Between the grip of your teeth

It's hard
No matter what you do
My guard
Was always up for you

It's hard
No matter what you do
My guard
Was always up for you

It's hard
No matter what you do
