### Verse 1

Now it's over, now it's done, you were right and I was wrong  
I was stupid, I was Young, You were sex on legs and I'm a man and if I had it over, I'd do it again

### Chorus

She loves it, she told me so the only problem is everybody knows  
She love it's, she can't get enough  
And when we're on a date the guys are lined up  
With her tits out, and a wandering eye  
I know it won't last, but I'll give it a try

### Verse 2

It's late one satday night and I'm all alone  
She's out with her girlfriends, she won't pick up the phone  
I went to my mates place, to hash it out  
And there she was, bent over the couch

### Chorus

She loves it, she told me so the only problem is everybody knows  
She love it's, she can't get enough  
And when we're on a date the guys are lined up  
With her tits out, and a wandering eye  
I know this won't last, but I'll give it a try

### Outro:

She loves it, she told me so the only problem is everybody knows.
