It coulda' been me

I heard that he's leavin'
'Cause he tried to believe you, oh yeah
But you told him too many lies
There were too many nights with tears in his eyes

When he says goodbye, I wonder if you'll cry
Like I did when you walked out of my life
Maybe now you'll realize who was your prize

'Cause it coulda' been me
I could have loved you
And it coulda' been me
But I couldn't trust you

It was all about you
He's gone and I'm movin' on
It's just another sad song
'Cause it coulda' been, it coulda' been, coulda' been
me

I heard that you're lonely, yeah, yeah
And you say you don't miss me, no, no, no, oh
But you act like everything is fine
I know you wanna come back
But you still have your pride, oh

When he says goodbye, I wonder if you'll cry
Like I did when you walked out of my life
And now you'll realize who was your prize

'Cause it coulda' been me
I could have loved you
Coulda' been me
But I couldn't trust you

It was all about you
He's gone and I'm movin' on
It's just another sad song
'Cause it coulda' been, it coulda' been, coulda' been
me

Now I know
That you're hurtin' inside
You act like you don't care
But your feelings you can't hide

But is it true that he got the best of you?
You were up and now you're down
Things come back around
And around and around

Coulda' been me
I could have loved you
Coulda' been me
I couldn't trust you

It was all about you
He's gone and I'm movin' on
It's just another sad song
'Cause it coulda' been, it coulda' been, coulda' been
me

I could have loved you
Coulda' been me
I couldn't trust you

It was all about you
He's gone and I'm movin' on
It's just another sad song
'Cause it coulda' been, it coulda' been, coulda' been
me

I could have loved you
It coulda' been me
I couldn't trust you

It was all about you
He's gone and I'm movin' on
It's just another sad song
'Cause it coulda' been, it coulda' been, coulda' been
me
