Sam Salter
"Show You That I Care"

When we were on the phone today
You told me what you had to say
That I was saying givin' up
The lovin' I had in store for you

You felt that you weren't being treated true
And so I thought to me the only
To give you my heart
And never let us be torn apart

And baby I'll give you love
Then you'll see I care enough
Then maybe you'll realize
That I'll give you everything you need
And all that your heart can see

I love you babe, I need you baby
Everything I do is to show you that I care

So will you be my girl tonight?
So I can make you feel alright
And as we dance in to the cold air
I'll keep you warm baby keep you near

So that you don't have to ever feel alone
And that your heart won't be torn apart
I'll give you my time
And never let you run out my life, no

Baby, I'll give you love
Then you'll see I care enough
Then maybe you'll realize
That I'll give you everything you need
And all that your heart can see

I love you babe, I need you baby
Everything I do is to show you that I care

So why don't you just believe me baby?
Said I am sayin' it and I'm doin' it now
I don't want to live without you baby

I really want to hold you
I really want to show you
I want to love you, yes I do
Baby, baby, baby

Baby, I'll give you love
Then you'll see I care enough
Then maybe you'll realize
That I'll give you everything you need
And all that your heart can see

I love you babe
I need you baby
Everything I do is to show you that I care

I'll give you love
You'll see I care enough
And maybe you'll realize
That I'll give you everything you need

Baby I'll give you love
And you'll see I care enough
