"Baby Blue"

Lie alone in bed at night
Feel the pull of a lonely day
Thoughts like music start to play
I wonder where you were today

Baby, baby blue
Baby, blue eyes I dream of you

Late at night when
The whole world's sleeping, I dream of you
Close to you, I feel
Your sweet heart beating, I dream of you

Late at night, late at night
Honey, late at night, I dream of you
I dream of you

Baby, baby blue
Baby, blue eyes a-loving you
I'll hold you in my dreams tonight
Hold you 'till morning light

Baby, baby blue
Baby blue eyes a-loving you
Baby, baby blue
Baby, blue eyes a-lovin' you
Baby, baby blue
