I'm blessed with everything  
A world to which a man can cling  
So happy times when i break out in tears  
In the back of my mind i still have my fears

I live my life with her  
Love her true she knows i'm sure  
I make her happy just living so plain  
In the back of my mind i'm 'fraid it's gonna change

I tried to run far way from thoughts

I should try to keep away  
But they just keep coming back to me  
I tried to rationalize  
But some day i might realize  
That things are just good the way they'll be  
I know it's so hard to find  
A girl who really understands your mind  
What will i do if i leave her  
It will always be way in the back of my mind
