A few days later the king and queen of the castle were  
invited to a ball  
As they were leaving that evening the queen said to the  
young prince  
Who was the eldest of the children  
"take care of the other ones tonight  
And don't try to find that radio  
We have it hidden away  
We'll be home by midnight"  
And then she said "goodbye"

The children's mother left  
And the party had begun  
And the children looked everywhere  
High and low  
Checking to see if they could find that transistor radio  
They couldn't find it they couldn't find it  
They looked upstairs and downstairs  
All through the castle and finally  
All of a sudden they heard a sound

What is that sound is it possible

Could it be the pied piper himself  
Coming out of the magic transistor radio  
Or was it just the wind whistling by the castle window

No one knows if the mysterious pied piper of night  
Was the one who came back to visit the princes and  
princesses again  
But if you have a transistor radio and the lights are all  
out some night  
Don't be very surprised if it turns to light green  
And the whirling magic sound of the pied piper comes  
to visit you

(bow bow)  
(i'm the pied piper)  
(bow bow bow bow bow)  
(in the radio)

(bow bow)  
(i'm the pied piper)  
(bow bow bow bow bow)  
(in the radio)

(bow bow)  
(i'm the pied piper)  
(bow bow bow bow bow)  
(in the radio)
