Down in Utah, the guys and I dig a city called Salt Lake
It's got the grooviest kids that's why we never get tired
of Salt Lake

And the way the kids talk so cool is an out of sight thing
And the number one radio station makes the town
really swing, yeah

Salt Lake City, we'll be coming soon

There's a park near the city, yeah, all the kids dig the
lagoon now

It's full of all kinds of girls and rides and we'll
be flyin' there soon now

And girl for girl, they've got the cutest of the western
states, yeah

They got the sun in the summer and winter time the
skiing is great, yeah

Salt Lake City, we'll be coming soon

Salt Lake City, we'll be coming soon
