Beach Boys, The
"Time To Get Alone"

Visit "Time To Get Alone" on MotoLyrics.com

I looked at you, baby
And what did I see
I saw love in your eyes
Made me feel so warm inside

Now look at me, baby
And what do you see?
You see love in my eyes
Gleaming just for you and now we know it's

Time to get alone
To get alone
And just be together
We'll only be together

Come and do a couple days
Just a ways
Away from the people
And safe from the people

The pine scented air
Smells so good in the snow
In our toboggan we'll go
Screaming down the mountainside

The touch of your cheeks
When they're rosy and cold
Feels so cozy to hold
Just to take you close and make you warm

It's time to get alone
To get alone
And just be together
We'll only be together

Come, do a couple days
Just a ways
Away from the people
And safe from the people

Lyin' down on our backs, lookin' at the sky

Lookin' down through the valley so deep and wide
Aren't you glad we finally got away? Glad we finally got
away
Aren't you glad we finally got away?

Now I looked around baby
And what do I see
I see love in your eyes
And I'm so glad that we finally had some

Time to get alone
To get alone
And just be together
We'll only be together

Come, do a couple days
Just a ways
Away from the people
And safe from the people
