You want what you can't have  
And girl that's too damn bad  
When you say he's what you need  
When you say he's why you breathe

Take it back, Take it back  
Take it back to the start  
Take it back, Take it all back

When the lights go off and the sun goes down  
And you're sat in the dark, with no one else around  
But the thoughts in your head, saying your better off  
dead  
But you're better than this, fucking better than this

You'll wait for him while he's with her  
You wonder if he still fucking cares  
Does he still think about the past like you?  
You still don't know what the fuck you're gonna do

Take it back, Take it back  
Take it back to the start  
Take it back, Take it all back

When the lights go off and the sun goes down  
And you're sat in the dark, with no one else around  
But the thoughts in your head, saying your better off  
dead  
But you're better than this, fucking better than this

One day you'll wake up and  
You'll realise you're just friends  
He's not what you need  
And he's not why you breathe and...

What's in the past is staying there  
Cause you're not getting anywhere  
So put on your pride and give us a smile  
You'll be okay in a while

When the lights go off and the sun goes down

And you're sat in the dark, with no one else around  
But the thoughts in your head, saying your better off  
dead  
But you're better than this, fucking better than this
