Walking out on you [x2]

*Easy chairs and an easy life  
That's what I want from you  
Just one rich bitch for an easy wife  
Don't wanna do nothing new*

Walking out on you [x2]

*Loving you came so easily  
When you laid your money down  
Wouldn't bite the hand that was feeding me  
Until you'd pay for my crown*

[SOLO]

*Living free came so easily  
When you laid your body down  
I led the way and you gave to me  
Everything you ever had*

Walking out on you [4x]
