Insecurity

What you do to me?

I used to like myself better

I used to feel clever

Insecurity

Taking over me

I used to love my old sweater

Now [?]

[?]

[?]

I wont be walking out the door with the shit I wore
before

Need a new [?]

I need the bees knees

Baby I been a fashion whore

You know that trip to [?]

Insecurity

You seem to get me when I'm all alone

When you took your shoes off

And you made yourself feel at home

At home [?]

Insecurity

What you do to me?

I used to like myself better

I used to feel clever

Now I'm not sure

About it anymore

I might've spent a little cheddar

On some shit that doesn't matter

[Talk to new me]?

Give me that laser beam

Can you inject a little filler

To make me look killer?

Wanna be sexy
Can you blame me?
I used to be a bed-wetter
I'm a fucking jet-setter

Insecurity
You're just a baby, now you're getting full grown
You know you're turning me crazy
Need to get the fuck out my [dome?]
Get the fuck out of my [dome]?

Now I need you, need you to tell me
Tell my I'm everything you want and need
Please don't ask me why I need it
It's just my egocentricity

Say you love my [funky stuff?]
Say I'm big and bad enough
Say I'm all a man could ever be
I need it, I need to hear it to rid me of my insecurity

Insecurity
Look what you've done to me
It's time to get out of my head now
It's time to feel better

Insecurity
Now get away from me
It's time to get out of my head now
It's time to feel better

Insecurity
Stop taking over me

Insecurity
Stop taking over me
