Take a little moment to relieve all your tension
Lose yourself to somebody else
Your mind's the creator and your body's the extension
Give me that
I'll give it back
If I scratch your back you need to scratch mine
You need to get yours I need to get mine
If I scratch your back you need to scratch mine
You need to get yours I need to get mine
So Scratch

It's you, It's you
That makes me wanna move
Before I take the trip to dance
I need to get my passport stamped
It's you, It's you
That makes me wanna move
If I scratch your back you need to scratch mine
You need to get yours I need to get mine
If I scratch your back you need to scratch mine
You need to get yours I need to get mine
