I Bash little kids heads into the pavement
Then I tie there asses up take them down to the
basement
Have fun with every little opening
Pull my dick out then I get straight to screwing
Make him suck me Make him fuck me
Before I beat his brains in
Fuck you and the little children
See the crimson from the incision
Only know how to sin
Where your life begins and where it all ends
Screaming to the devil while I'm fucking
All tied up and cut up with fucking saw blades
Today aint your day
Touching myself as your fucking life fades away
Path of evil is the only way I go
I'm fucking nutso
Leave you suffering with a bleeding fucking butt hole
Think your life is hell kid you don't even know
My killaz got dibbs on your fucking mouth hole

(Chorus x2)

Welcome to the blackness the blackness
Fall into the madness the madness

If you don't know me you will know me soon
As I tie you up slit your throat and piss in the wound
Your fate is mine motha fucka ya doom
Can't you see I'm psycho and fucked up in the head
Whole family murdered tied up in they bed
Told them not to scream should have listened to what I
said
Once you draw the line you can only draw it some more
You fucking bitch you don't know what happens behind
my door

(Chorus)
