Search your soul for evermore  
For the answers why you  
Need to bleed in order to survive  
Again

You know what will remain  
An island sealed by pain  
Like Charon on the Styx  
I'm caught between your legs

Paper thin your walls within  
It won't last for ever  
Let's pretend the leaking is alright  
Again

You know what will remain  
An island sealed by pain  
Like Charon on the Styx  
I'm caught between your legs

You know the past is at the gate  
When the hull deteriorates

You know what will remain  
An island sealed by pain  
Like Charon on the Styx  
I'm caught between your legs
