I can tell you've been smiling
And you found someone new
How can you be okay when
I can't seem to make it through

I will wait here forever
Under your front wheel
If you drive I'll heal

It's in your hands now
It's in your hands...

Did you think it was over
I'm not one to give in
I won't go nowhere till
you take me back or crush me thin

I will wait here forever
Under your front wheel
If you drive I'll heal

It's in your hands now
It's in your hands...

Ostracized
I am Ostracized

I will wait here forever
Under your front wheel
If you drive I'll heal
It's in your hands now
It's in your hands now...
