"Blood of the Tyrant"

in this dream that we dwell
no one is seen the truth
our empire will fail ruled by the brute.
Nero chosen by god
ruler to all that remains
blinded by his vanity
set the "Eternal City" in flames.

At the arena thrown to the wolfs
blood is flowing ,flooding the gates,
tears of suffering,tears from hell
cleansed by the fire ,chilled from his flame.
blood in the chalice freedom is born,
spit on the tyrant his body was torn .
THE TYRANT-Laying in a pool pf blood
THE TYRANT-without a judge
lost in flames his power dies
empire burns.
in fire he will burn
empire without soon
lost in flames his power dies
empire burns .
