I know you think everybody's wrong  
to talk the walk and then talk right through our song  
I swam a thousand years to meet you there  
well that's how it feels when nobody cares  
but don't let go  
remember we're all rolling stones  
would you be satisfied  
that's okay man we're all dyin'  
to just give it away

sorry it don't live here anymore  
you know just exactly what it's for  
and I didn't feel like fallin' down today  
when I couldn't bring myself up anyway  
don't let go  
remember we're all rolling stones  
and you say they lied  
well that's okay man we're all dyin'  
to just give it away
