If it wisnae fur yer wellys where wid ye be
you'd be in the hospital or infirmary
cause you'd have a dose ae the flu or even plurisee
if ye didnae have your feet in your wellys.

wellys they are wonderful
wellys they are swell cause they keep out the water
and they keep in the smell.
and when yur sittin' in a room
you can always tell when some bugger takes aff his
wellys.

If it wisnae fur yer wellys where wid ye be
you'd be in the hospital or infirmary
cause you'd have a dose ae the flu or even plurisee
if ye didnae have your feet in your wellys.

Or when your out walkin' in the country wae a bird
and your strollin' over fields just like a farmers herd
and somebody shouts keep aff the grass
and you think how absurd
and Squelch you find why farmers all wear wellys

If it wisnae fur yer wellys where wid ye be
you'd be in the hospital or infirmary
cause you'd have a dose ae the flu or even plurisee
if ye didnae have your feet in your wellys.

theres fishermen and firemen theres farmers an all
men out diggin' ditches and workin' in the snow
this country it wid grind to a halt and no a thing wid
grow
if it wisnae fur the workers in their wellys.

If it wisnae fur yer wellys where wid ye be
you'd be in the hospital or infirmary
cause you'd have a dose ae the flu or even plurisee
if ye didnae have your feet in your wellys.

now Edward Heath and wilson
they hivnae made a hit
