They say that inside every thin man
A fat man's trying to break free
And now you gotta keep him in, man
Or you'll get treated like a freak

But it ain't none of their damn business
After all, what do they know?
Life's for taking to the limits
I'll go the way I wanna go
Cos it's the

Fat man in me
Born to be me
Fat man in me
Big mean heavy

So heed my warning and keep out of my way
I'm getting even and it starts today

My radio and television
Say that you're better if you're thin
But in the end, it's my decision
I'd really hate it if I looked like them
Cos it's the

Fat man in me
Born to be me
Fat man in me
Big mean heavy

So heed my warning and keep out of my way
I'm getting even and it starts today

What you looking at?

Cos it's the

Fat man in me
Born to be me
Fat man in me
Big mean heavy

Fat man in me
Born to be me
Fat man in me
Big mean heavy
Fat man in me
Born to be me
Fat man in me
Big mean heavy
