The fussing, the fighting, were always playing
Like we think we've got something to say
And were always holding out our fingers and mouths
Waiting to be put in our place

Somethings gonna break, I know its gonna break
I know its gonna break in two
Someones gonna hurt, I know they're gonna hurt
And better off me than you

The simple schemes of idiot dreams
Are all we have to show for the day
And we think we're so much better
We know we're so much better
Than those who got lost along the way

Somethings gonna break, I know its gonna break
I know its gonna break in two
Someones gonna hurt, I know they're gonna hurt
And better off me than you

When you look at the skies do you search for answers
Or do you hang your head in shame
When you look at the sky do you look for satellites
To someday take you away
From this place, the sorrow, and disgrace

Promises made and promises change
Quicker than fibs into lies
Let me do it all over, I know I could do better
I could cut you down to size

Somethings gonna break, I know its gonna break
I know its gonna break in two
Someones gonna hurt, I know they're gonna hurt
And better off me than you
