(ft. Tunde Adebimpe)

Oh, oh, oh!  
It's..  
Gas match to the brain,  
Spin off your, with the rap off the hook like,  
I'll slide off the map with the pencil, so pretty!  
You like me to,  
..you can see it on your breast ,  
So chew it when it's December!  
Walk like,  
I saw the light, just get the heights,  
we create the rhymes  
To, outside the lines.  
Out of the,  
our dreams escaped this marathon  
No essential, so we,  
Take the exit straight to hell..  
I believe it's average worst,  
Kept the writing in heavy, on another level,  
All said and never settle,  
..the GPS, and so damn fresh,  
I walk alone, the line is literary,  
King shit lyrical, so critical,  
You all spineless and unoriginal,  
,and if it's,I'll make shine and it's still rhyiming,  
Probably more rock to the pm,

.. a match to set the world on fire!  
Oh! screw you if you're calling me a liar!  
So I'll mellow you out!  
Mellow you out!  
This will mellow you out!  
This will mellow you out!  
Develop the method to mellow you out!  
Oh, oh!
