Come on, come on, move on, on
Train, train, please, come, come.
Cold, cold, can't move on on
Still stay here along long

Staying at the station the time is gone,
The cold weather makes my my head head gone.
Everybody's waiting, but nobody is gone,
My nose id frozen, well done.

My hands are frozen, the train doesn't come
Døey legs are frozen, the fears come.
My brain is frozen, the train doesn't come.
The train comes, but I can't move on.

I am still waiting here and everybody is gone.
I won't be waiting for the next train that's come
Staying there and the train is gone.
Still stay here along long

Staying at the station, the train is gone,
The cold weather makes my my head head gone.
I am still waiting here and everybody is gone.
My nose id frozen, well done.

Come on, come on, move on, on
Train, train, please, come, come.
Cold, cold, can't move on on
Still stay here along long

Come on, come on, move on, on
Train, train, please, come, come.
Cold, cold, can't move on on
Still stay here along long
