Tonight can be forever
Tonight will be forever
Tonight let's get together
Just you and me.

It seem like just the other day i was dreaming bout you.
Sleepless nights and endless days thinkin about you.
And now you just stepped in my life
And now i wanna take you for my wife.
Can i spend my life with you oh let me love you.

Tonight can be forever
Tonight will be forever
Tonight let's get together
Just you and me.

Girl i'm not trying to get with you for one night screw.
All i want for you to do is let me love you.
And now you just stepped in my life baby and now i
wanna tek you for my wife.
Can i spend my life with you oh girl i wanna love you.

Tonight can be forever
Tonight will be forever
Tonight let's get together
Just you and me.

It seem like just the other day i was dreaming bout you.
Sleeples nights an endless days thinkin about you.
And now you just stepped in my life
And now i wanna tek you for my wife.
Can i spend my life with you oh let me love you.

Tonight can be forever
Tonight will be forever
Tonight let's get together
Just you and me.
