(Verse)

Come here in the duality of time  
The things I feel now I never thought I'd find  
I wonder if our future was written in our past  
I was your first taste, would you be my last

(Chorus)

My world split in 2  
I had to prove I didn't think  
I didn't know I could do it without you  
Do it without you.

(Verse)

Envision me on the frame  
Lost in the rules we made to our own game  
I crawl myself through black holes  
To wind up at his door

More than eyes to find  
Didn't believe it wasn't worth the fall

(Chorus)

My world split in 2  
I had to prove I didn't think  
I didn't know I could do it without you  
Do it without you.

We built paths, have every right to breathe  
I had to prove I didn't think  
I didn't know I could do it without you  
Do it without you.

(Bridge)

No trace of where  
Now fully realised this fear  
Did destroy or deny what maybe you once felt inside  
Skin crawls and filled with land  
Terror hands and rarely spread

(Chorus)

My world split in 2

I had to prove I didn't think  
I didn't know I could do it without you  
Do it without you.

We built paths, have every right to breathe  
I had to prove I didn't think  
I didn't know I could do it without you  
Do it without you.
