(Verse)

Simmering songs never get plain  
Tinsel dreams, sweet lemonade  
The gates close the pack shut down  
They packed up they found another town  
To replace, to erase

Curious schools mimicking fools

(Chorus)

This isn't control  
This isn't control  
This isn't control  
This isn't control  
This isn't control  
This isn't control  
This isn't control  
This isn't control

(Verse)

Left behind the perfect crime  
Like a swell hence subside  
Subside  
What was the spell it feels like a curse  
Wonder if you could lead first

Curious schools mimicking fools

(Chorus)

This isn't control  
This isn't control  
This isn't control  
This isn't control  
This isn't control  
This isn't control  
This isn't control  
This isn't control
