I saw 2 birds
and you saw them 2
we thought
it, was, all, to sweet

and you call
and gave me a number
if I needed
-just so I know

we drove that night
we know there's a high
-there a high
we stayed up late
and sleep all day
I, we will try

it was so hard
to come on to you
had to ask..
it, has, come to this

she thinks
with her finger
on her nose
as to point a direction

we drove that night
we know there's a high
-theres a high
we staided up late
and slept all day
I, we will try

got to love her drive
we talked and turned
got to love her drive
we talked and truned
turned, turned- things we've tried
