"Fly"

When last place is where I've been
It's hard to find the strength to start again
Sometimes it seems like I can never win

I'm held back by the weight of a crowd
Can't move to find my way out
You give me faith to get my feet off the ground
'Cause it's not easy

Trying to fly against the wind
When I keep on falling back to where I've been
And start over again

I'm overwhelmed when there's too much
Hiding the view to all that You've done
I step back to see how far we've come
And You're always with me when I'm

Trying to fly against the wind
But I keep on falling back to where I've been, yeah
Trying to fly against the wind
Start over again

When last place is where I've been
You give me what I need to start again, again, again

Trying to fly against the wind
But I keep on falling back to where I've been
Yeah, trying to fly against the wind
And You keep on coming back for me again
Over and over again
