You might think, you'll never be the one to save the day
Or do anything that matters in the world
But god can take your ordinary life and do great things
When you step out in faith

[Chorus:]

You don't need to be the biggest in life
Don't need to be the strongest to fight for what's right
Cause a hero's great for who they are inside
Don't need to be the tallest in line
You could be the smallest in size
And if your heart's right, you could be our hero tonight

So will you take, the little that you have, and make a
change
For the weak and helpless in the world
If your embrace the journey that's before you, lead the
way
Your faith will guide you
And in your weakness, you will find your strength

[Chorus:]

Don't need to be the biggest in life
Don't need to be the strongest to fight for what's right
Cause a hero's great for who they are inside
Don't need to be the tallest in line
You could be the smallest in size
If your heart is right, you could be our hero

And if you feel afraid, when the road ahead looks hard
Follow your heart

You could be the flame, for a world that fears the dark
Brighter than the stars

Don't need to be the biggest
Don't need to be the strongest
To do what's right
Cause hero's are great for who they are inside
Don't need to be the tallest in line
You could be the smallest in size
And if your heart is right, you could be our hero.
