

Sanctus Real "Hey Wait"

Visit "[Hey Wait](#)" on MotoLyrics.com

So confined to the fear that you hold on to
Time unwinds and nothing seems
Promised you

Hey wait, I want to take you for a ride
Hey wait, I want to catch you
While there's time

Who'll pick you up when there's no one
(I'll)
Around?
Who'll hold you up when your heart
(I'll)
Hits the ground?

So defined by a love that has fallen through
But hope is kind
When you hope in something
You know is true

You're tired and you can't take
Another time around
You know it's hope I'm holding
So, I hope I've found you in this
