I'm gonna tell you why we keep on coming back
To the same old set of tired and rusty tracks
Dreams fade and wither all the time
But you know when you're born for something in this
life

And I'm gonna tell you why we keep on keeping on
Cause a song was made for us and us for a song
It knocks on the door of your heart and you can't deny
But you open up, you let it inside

So I sing at the top of my lungs
Raise my hands and get caught up
It's just one of those things you can't run away from
(One of those things you can't run away from)
One of those things you can't run away from
(One of those things you can't run away from)

And I'm gonna tell you why we keep on singing about
Love and faith and the things that so many people
doubt
Oh there's a fire in us, that burns from the inside out
We don't need to water it down

So I sing at the top of my lungs
Raise my hands and get caught up
It's just one of those things you can't run away from
(One of those things you can't run away from)
One of those things you can't run away from

So I sing at the top of my lungs
Raise my hands and get caught up
Well I sing at the top of my lungs
Raise my hands and get caught up
It's one of those things you can't run away from
(One of those things you can't run away from)
It's one of those things you can't run away from
(One of those things you can't run away from)
One of those things you can't run away from
(One of those things you can't run away from)
Yeah, one of those things you can't run away from

Can't run away from, can't get away from
