

Sanctus Real "Where We Belong"

Visit "[Where We Belong](#)" on MotoLyrics.com

Well, are we afraid of what people say
What they think about us?
This is the way of cynical heart learning to trust
Everyone is scared of feeling out of place

Breakaway the walls
Carry us to where we belong
Make a way for us to follow grace
So we can love everyone the same

Can I learn to drop my guard and show someone my
heart?
Break the vice of stereotypes that keep us apart
I'm no stranger to the feelings
Of being insecure and out of place

Breakaway the walls
Carry us to where we belong
Make a way for us to follow grace
So we can love everyone the same

Breakaway the walls
And carry us to where we belong
Make a way for us to follow grace
So we can love everyone the same

Breakaway the walls
Carry us to where we belong
Make a way for us to follow grace
So we can love everyone
We can love everyone the same
