"Every Time She Turns Round It's Her Birthday"

Visit "[Every Time She Turns Round It's Her Birthday](#)" on MotoLyrics.com

Spinning round you weigh me down
Gravel hands of green and brown (x4)

In your cells both red and white
On the sun that gives us light
In your cells both white and red
From the mouth our kids get fed

In your cells both red and white (spinning round you
weigh me down)
On the sun that gives us light (gravel hands of green
and brown)

In your cells both white and red
From the mouth our kids get fed

In your cells both red and white
On the sun that gives us light (way down on the
ground)
In your cells both white and red (big cells that you can
hear)
From the mouth...
(Almost makes us disappear)
