

Sandifer Phillip "Quiet Time"

Visit "[Quiet Time](#)" on MotoLyrics.com

Billy Simon

Bad news again as always

All these unlucky breaks they're getting me down

Pressure from every side

Makes me want to go hide somewhere alone

Where the time is still and I can think it out

Where I can see you Lord and you can calm me down

Chorus

I need some quiet time to get you on my mind

Leave the worry far away

Fill my heart with you so I can still get through

When it's not quiet time

This world it sure has a way

Of making living a strain, but I'm glad I can know

Lord you've got me prepared

In the time that we've shared

In our quiet time

Where the time is still and I can think it out

Where I can see you Lord and you can calm me down

Repeat Chorus

I need some quiet time, need some quiet time...
