Well, couldn't have guessed you'd be down

Well, couldn't have guessed
Frame aligned. A light to guide you home
Across the fire against the night
Align pictures to take me back
I wish but everybody's guess is as good as mine

Frame aligned. A light to guide you home
Across the fire against the night
Align pictures to take me back
I wish but everybody's guess is as good as mine

I never found out why
Sky busy pray on sitting days
It make me want to sigh
Seems to be to beautiful to me
To wanna see somewhere else
But I can't help myself

Wanted to stay inside, close eyes
In the day I'm closer to the end

Frame aligned. A light to guide you home
Across the fire against the night
Align pictures to take me back
I wish but everybody's guess is as good as mine
(2x)
