I will remember your first kiss
Forever
Forever
You're my shining star, my bliss
Forever
Together
They must have sent you from heaven
and I feel we're the ones - you and me
I walk the desert to be with you
I swim the ocean to get to you
I wanna love you 'til the end of time
Forever
(Wanna fly with you)
I climb the mountain, you set me free
I cross the valley, you shelter me
I wanna stay with you all my life
Together
(Wanna die for you)
You come and wash away the rain
Forever
Forever
You're gonna dry my tears of pain
Forever
Together
They must have sent you from heaven
And I feel we're the ones - you and me
I walk the desert to be with you
I swim the ocean to get to you
I wanna love you 'til the end of time
Forever
I climb the mountain, you set me free
I cross the valley, you shelter me
I wanna stay with you all my life
Together
(Wanna die for you)
Forever
(I wanna love you 'til the end of time)
I swim the ocean, I walk the desert
I wanna stay with you
Forever
